

You Can Rely On Horizon Steel Rollers For High Performance

# QUALITY STEEL ROLLERS

ROLLERS DESIGNED FOR SPECIFIC APPLICATIONS

At Horizon we have the ability to design rollers in accordance with specific customer applications and conveyor duties. Using in-house developed computer software, Horizon considers all the parameters within which a specific conveyor operates such as belt tensions, misalignment, TPH, idler pitch, etc to ensure the correct sizing of the roll, shaft, bearings and seals.

Haysech Road, Halesow en, West Midlands B63 3PD.
